

Product Description

- **Import**
- Nitrile Coated Palm
- Nylon/Polyester Knit Shell
- Pink, Steel Blue, Green, and Purple Colors
- EN Abrasion Resistant Level 4
- Durable Through Launderings
- Great Dexterity, Sensitivity, and Fit!
- Tagged with UPC Barcode
- Ladies Size

EN388

4121

Applications

For Gardening or Household General Purpose Work.

Packaging

- Sold Per Bundle

TECHNICAL INFORMATION

Nitrile butadiene rubber— It's resilience makes NBR a useful material for disposable lab, cleaning, garden, mechanical work, and examination gloves. Nitrile rubber is more resistant than natural rubber to oils and acids, and has superior strength and is more flexible as a light coating. Nitrile gloves are therefore more puncture resistant than natural rubber gloves, especially if the latter are degraded by exposure to chemicals or ozone. Nitrile rubber is less likely to cause an allergic reaction than natural rubber.

Sizes and Packaging

Size	Ladies
Master Pack (pr.)	144 pr.
Inner Pack (Pr.)	12 pr./bundle
Case (in.)LWH	18 x 11.25 x 11.5
Cubic Ft.	1.3
Weight (Lb.)	13
