TECHNICAL INFORMATION

Leather Driver

Driver's gloves are full leather gloves primarily made in the gunn-cut pattern. They can be lined or unlined and usually come in several sizes: small, medium, large and extra-large.

Constructed of soft brown split leather to provide excellent wear, comfort, and protection.

Leather is well suited to make durable gloves due to its unique properties. It is a very durable material which is also soft supple, and pliable. In addition, it has some stretch in it which allows it to move with the many movements of the hand.
